

ENDER BATU DEMIRTAŞ

(307) 301-7092 | ba2demirtas@gmail.com | linkedin.com/in/batu-demirtas | github.com/Batu-end | Fullerton, CA

EDUCATION

California State University, Fullerton

Fullerton, CA

Bachelor of Science in Computer Science

Expected May 2026

- **Relevant Coursework:** Data Structures, Algorithms, Software Engineering, Operating Systems, Object-Oriented Programming, Back-End Development, Machine Learning

EXPERIENCE

Association for Computing Machinery (ACM) – CSUF

Fullerton, CA

Artificial Intelligence Board Member

January 2025 – Present

- Spearheaded industry outreach program, bringing engineers from companies including AWS to deliver expert panels, attracting **20+ students per session** on topics spanning AI, back-end development, and data engineering.
- Overhauled presentation and workshop formats, increasing overall event attendance by **30%+**.
- Redesigned engagement strategy, growing interactive activity participation from near-zero to **25+ students** per session.
- Structured curriculum to serve both beginners and experienced members, creating a tiered AI/ML learning environment.

Data Science & Machine Learning Club (DSML) – CSUF

Fullerton, CA

Vice President

January 2025 – Present

- Lead weekly presentations bridging theoretical ML/data science concepts with real-world applications and live tool demos.
- Organized hybrid (in-person + online) sessions to maximize accessibility and sustain consistent attendance.
- Developed case study-driven curriculum grounded in realistic datasets and industry-relevant ML challenges.

Ilam Library

Fullerton, CA

Library Technology Specialist

March 2021 – February 2022

- Provided Tier-1 technical support to students and faculty at a high-traffic help desk, resolving hardware and software issues with minimal disruption.
- Managed and maintained lab computer stations and peripheral equipment across the facility.
- Conducted regular inventory audits to ensure full equipment availability and accountability.
- Communicated technical solutions and library policies clearly to a diverse user base, consistently delivering a positive patron experience.

TECHNICAL SKILLS

Languages: Python, C++, SQL

Cloud: AWS (EC2, S3, IAM, Bedrock, KMS, EBS)

Tools & Platforms: Git, GitHub, Jira, Confluence, Slack

Concepts: Machine Learning, Data Structures & Algorithms, REST APIs, OOP
